

# Barinderpal Singh Mumick

Vice President, Operations

Barinderpal Singh Mumick is the Vice-President of Operations in Kirusa. He is responsible for maintaining efficient team structure and performance through analytics, processes, and tools, maximizing new client engagement and working with the leadership team to develop plans to meet future needs.

Prior to joining Kirusa, Barinderpal was a technical analyst at Lucent Technologies in the CIO organization, where he developed the architecture of several business applications, including web applications, and managed their implementation, integration, and operation in a production environment. These applications were globally deployed and used by Lucent employees and customers. He has also designed and developed database applications at AT&T in New Jersey, and at the United Nations in New York.

He holds a BS degree in Computer Engineering from India and an MS degree in Computer Science from the New Jersey Institute of Technology.
